

Bosnia & Herzegovina: Advocacy and local politics training course

Against a background of poor harmonisation and implementation of election legislation that foresees minority participation of national minorities at local level, the Center for Civic Initiatives (CCI) organised a course in June to provide advocacy training on this issue.

Representatives of the Roma Resource Centres in Tuzla and Kakanj and the Union of National Minorities in Banja Luka attended. Subsequent initiatives in 6 municipalities with large minority populations will be followed up by CCI.
